

Introducing the new...

RETURN & RECYCLE Scheme from Sinclair & Rush

Recycling your used Plastic Chair Feet has never been easier, here is our 3 step process

STEP 1 : REPLACE/REPAIR

Extend the life of classroom furniture with our purpose made replacement chair feet.

Source new replacement feet from www.sinclair-rush.co.uk View our fitting guides and product videos for help selecting the perfect fit

STEP 2 : RETURN

Put your used chair feet into the boxes we supplied you with your new chair feet in. Next contact our Customer Service team who will arrange for our courier to come and collect them.

You can contact our CS Eco-Team by emailing ukcustomerservice@sinclair-rush.co.uk

STEP 3 : RECYCLE

Once brought back to site, we collect 4 tonne loads to send for grinding down into re-usable pellets that are then introduced back into the manufacturing process.

“ Help us to change the lifecycle of replacement plastic chair feet so that they are no longer destined for landfill. With our FREE RETURN & RECYCLE scheme, it is now simple to return worn chair feet to us for grinding into re-usable pellets to form new part-recycled materials. ”

www.sinclair-rush.co.uk

We will recycle as much of the returned material as possible but in some cases not all returned plastic feet may be suitable for the process. Plastic only, please do not return any metal content within the boxes. Scheme is based on PE Internal and External fitting Chair Feet for Schools
