About us

We are proud to be an independent family owned company; with the sole ownership held by two brothers. Paul Gardner the company MD has worked in the plastics industry for more than 20 years & he started the company with his brother James in the October of 2000. Since then Component Force has been the fastest growing company in it's sector, with continued growth year on year. We owe our success to the great team that have helped to drive us forward over the years. With our primary focus on customer service & attention to detail, we always treat our customers in the same manner that we'd expect to be treated.
